

MASTER ROBOT BUILDERS

Robot competition 2023

WELCOME TO JOIN A COMPETITION

Satakunta University of Applied Sciences (SAMK) and South-Eastern Finland University of Applied Sciences (Xamk) from Finland, are proud to host a Master Robot Builders robot competition for Indonesian and Vietnamese high school students.

We recommend you to have teams of 3–5 students. Up to 300 teams can take part in the competition.

PRIZES FOR TEAMS

1. 150 €
2. 100 €
3. 50 €

ROBOT SENSOR AND PART RESTRICTIONS

In order to guarantee an equal playing field, there are some limitations to your robot creations. Software side you can do what you best see fit! There are no limitations to software. We will do our best to help you to surpass your original plans.

Suitable kits are, for example: mBOT, Lego robots, GRobot. All kits are possible (not only those mentioned).

See more information from website.

SUBMISSIONS

Submissions are done as video clips on functioning robots.
